Fantastic little endless runner with awesome visuals and a great soundtrack. Good for a quick session when you have time and even better when you get into that trance state if you have longer. Super easy to pickup and you'll always be wanting to beat your highscore, even if only to hear abit more of the music. Can't go wrong for the price, definitely recommend giving it a shot.. don't need to play too much of this at a time, and that's the beauty of it. play for a bit, earn new levels and music, play some more, at your own pace. I enjoy the visuals a lot, I just wish it had controller support.. Great Time-Killer, if you like Nickervision games like Ding Dong XL, Orbt XL ect. and Retro Music. I'ts for you. I like the customizable map design, so you can make your own patterns. Can't wait for more songs and online Leaderboards.. This game really captures the 80's feel with

the neon lighting, soundtrack and screen effects. It's highly addictive and can captivate you for hours! Great game if your looking for some cheap entertainment thatu2019s super easy to jump in and out of.. don't need to play too much of this at a time, and that's the beauty of it. play for a bit, earn new levels and music, play some more, at your own pace. The music is great, the visuals are awesome and the control scheme is simple but intuitive. I can see myself revisiting this time to time whenever I need to unwind and relax..
